Testimonials

Words from Professors...

I would sincerely recommend all students to take benefit of the Renaissance Workshop. It provides exceptional training in Academics & Self-Discipline. The courses chosen are very appropriate and exactly cater to the placement needs. The overall program is rightly designed to offer brilliant noble leaders to the society. I highly appreciate the hard work put in by the organisers and offer them my best wishes.

Dr. Deepak Garg

Director, Amity University

Chair, IEEE Computer Society, India Council

Dr. Abhinav Grover

Assistant Professor, Jawaharlal Nehru University
INSA & NASI Young Scientist Award Winner

Words from Professors...

I have personally observed the training format which Renaissance offers. Workshops are of very high quality. The course structure provided in Renaissance is extremely useful. The workshops focus on all-round development; both academic and character. Thus I recommend all the students to participate enthusiastically and learn a lot.

Words from Professors...

Dr. Satyam Agarwal

Assistant Professor, IIT Ropar

Post Doc, Politecnico di Torino, Italy

M.Tech (IIT Kanpur), Ph.D (IIT Delhi)

Renaissance team is doing a great job by offering such a program for first year students, which not only trains the students academically, but also sets up a wonderful platform to make them into better human beings. The youth of today is the future of our country. I have personally been a part of Renaissance on a few earlier occasions, and have gone through the curriculum thoroughly. If given an opportunity, each and every student must attend it.

Prof. Laxmidhar Behera

Director, IIT Mandi

- Ph.D (IIT Delhi)
- PostDoc. (Germany)
- Goes for faculty recruitments in many well known institutes across the globe

Awards and Fellowships:

- Technical Committee **Member** (Intelligent Control), **IEEE** Control System Society
- **Oxford University Press** has brought out the second reprint of the Book 'Intelligent Systems and Control: Principles and Applications' -within 8 months of its first publication. The book has already been **used as a text book in IIT Kharagpur, and Penn State Great Valley, USA.**
- UKIERI Standard Research Award 2008
- **Visiting Researcher/Scholar** at University of Ulster, **UK**, and Fraunhofer Gesellschaft, **Germany.**
- **Best Paper of the Conference**, International Conf. on Intelligent Sensors and Information Processing, ICISIP-2004, January, 2004, India
- **Best Paper award**, WoSco,02, Int. Conf. High-Performance Computing (HiPC), 2002
